SENTINEL  
RISK ADVISORS

## Cyber 2.0

Safeguarding Your Business

*In partnership with:*

**Wednesday, December 2, 2020**

2:00 p.m. - 3:00 p.m.

Virtual Webinar

Please join us for this special webinar. Experts will provide an overview to the changing world and challenges regarding Cyber in 2020 and beyond - including tips and tricks to protect your business's data, assets and reputation.

## Meet the Presenters

**Amelia Bernstein, esq.**, is the Senior Director of Specialty Lines with Sentinel Risk Advisors. She is a cyber and data risk management expert working directly with clients to provide comprehensive programs tailored to individual needs. To meet the ever-changing demands of her clients' cybersecurity insurance needs, Amelia is a regular attendee at a number of nationally recognized cyber conferences and spends time educating clients through speaking engagements, written publications, and employee trainings.

**Steve Wujek** is a senior network & cybersecurity engineer at TCDI that has been designing, protecting, and securing enterprise networks for over 25 years, having worked for the likes of AT&T, American Express, UPS, Ralph Lauren, and the Dept. of Defense (DoD). He is also a regular attendee and speaker at black-hat conferences and cybersecurity events. Steve holds a multitude of networking and cybersecurity certifications from Microsoft, Cisco, SANS, and the Department of Defense.
